Egoli Ranch ~ Weinheimer Herd ~ Stillwater, OK

We run our goats in unimproved Woodlands with only natural shelter...this is where they kid out as well in all but the most extreme weather.

Additionally, we have smaller paddocks up front with open ended hoop shelters for new goats, or kidding during freezing rain or ice. When in these paddocks we provide prairie grass and feed.

Cd&t and CL vaccines with no deworming to extremely minimal worming, currently no worming done since 2016.

DNA Registered and SGCS Certified Herd
